

BTKi Research Guide

Instructions:

Prior to your first Virtual Group Planning Call for Workshop 3, you will be assigned a patient profile and competitor BTKi for both 1L and 2L treatment. Review the appropriate competitor BTKi module(s) to help you complete the BTKi Research Guide below.

Bring your completed prework to your Virtual Group Planning Call scheduled by your Group Lead. Be prepared to use your insights to inform the planning of your group’s Scenario Presentation.

Patient: _____

BTKi Prescribed for 1L Treatment: _____

Selected BTKi Rationale:
Which trial(s) support 1L use of this product for this patient?
How do the patient’s disease and clinical characteristics compare to patients in the trial(s)?
Which key efficacy results should be presented?
Which key safety results should be presented, including fair balance?
What was the trial/study rationale?
Describe the advantages and limitations of the trial(s).

Patient: _____

BTKI Prescribed for 2L Treatment: _____

Selected BTKI Rationale:

Which trial(s) support 2L use of this product for this patient?

How do the patient's disease and clinical characteristics compare to patients in the clinical trial(s)?

Which key efficacy results should be presented?

Which key safety results should be presented, including fair balance?

What was the trial/study rationale?

Describe the advantages and limitations of the trial(s).
